

Dear David...

I have only had your Cooking system in use now a month, and have already cooked many great dishes. You were right about it cooking in about ½ the time as conventional cookware.

Another nice surprise we have saved at least 30% on monthly food bills. My family is actually feeling more energy and the Lookcare is so easy to clean, and sooo beautifull I just love it

One more thing we tried the stacking while at a movie and it was great to come home to a seven corse hot dinner waiting for us. The food was out of this world.

I know you must like helping people or you would not have worked out financing for us through your ~~own~~ Company. We do appreciate it sooo much.

I am happy to tell my friends how to live longer and be strong you will be hearing from them very soon. I know of several who desperately need this cooking system in their lives.

Your Our Hero,

Teresa Smith
