

**CARICO'S WATER FILTRATION SYSTEMS  
PROVIDE THE SOLUTION TO THE PROBLEM**

**SEE WHAT DR. STEVEN V. FIORENTINO D.D.S.  
SATISFIED DENTIST HAS TO SAY:**

November 4, 1999

To Whom it May Concern:

As a professional dental office, we are very concerned with having sterile instruments and clean, clear water for the patients to drink.

Therefore, after researching similar products, we decided to install the Carico International water filter products in our entire office building. We have found them to be very effective and easy to maintain and would recommend them to anyone seeking such products.

Sincerely,

Steven V. Fiorentino, D.D.S., P.C.
